Show targets Start titles	angra - anama - c-a			
Clear screep Individual shooting				
Mass shooting				
Clear screen				

Chose smallest "Screen Resolution" for easier configuration.

2. The windows layout will look like here...

Next chose correct Port where KES data comes from a list "Connect to port":

- COM1, COM2... for physical COM-port and virtual USB COM-port of your PC;

"Add port", and type IP address with port number for MOXA, like 192.168.127.254:4002

(please, ensure that COM-port settings on PC or in MOXA configuration is set as 19200 bod).

### 8. For FULL-SCREEN MODE press Ctrl+M

To go back to Small-screen mode press **Ctrl+M** again.

- 9. In order to show full-screen mode on LED Videowall, make following:
  - Connect video-processor or capture card of Videowall to you laptop via HDMI or DVI input.
  - Set this screen as second clone monitor in your laptop.
  - Set resolution 1024x768 for this monitor in your laptop.
  - Set "stretch" or "fit to screen" mode in video-processor or capture card of Videowall.
- 9. In order to play KES-log on software for demonstration, make following:
  - Go back to Small-screen mode, put mouse on main control winow.
  - Press Alt+L;
  - Press button "From file" and open KES-log. It starts to play automatically.
  - You may put a pause and continue playing here in a window.
